Regulation of electrode size

Subdural electrode	Inter-electrode pitch External size of base Thickness of base Length of lead tube	5 to 15 mm Proportional to inter-electrode pitch 0.8 mm $\pm$ 0.2 mm 350 mm $\pm$ 100 mm
Deep electrode	Inter-electrode pitch Radius of lead tube Length of lead tube Guide center core radius Guide core length Guide tube radius Guide tube length	5 to 15 mm Φ 1.5 mm $\pm$ 0.5 mm 350 mm $\pm$ 100 mm Φ 0.4 mm $\pm$ 0.1 mm 400 mm $\pm$ 100 mm Φ 0.8 mm $\pm$ 0.2 mm 400 mm $\pm$ 100mm

Our intracranial electrodes can set freely number of poles, inter-poles, array, and external size.

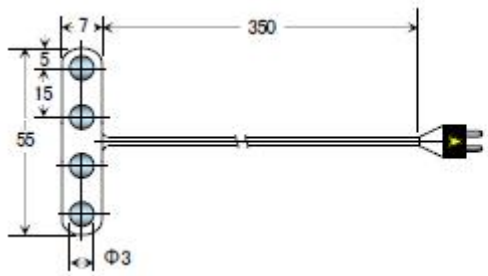

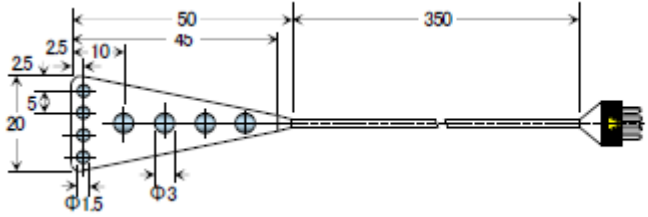

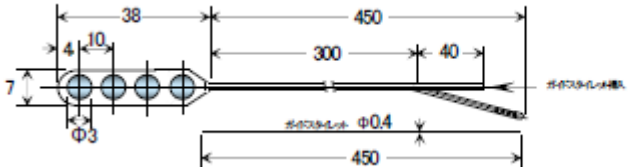

- As we employ platinum for the electrode material it allows safe and stable measurement.
- Thickness of electrode sheet of material is 0.8 mm silicon and allows stable application.
- Electrodes can measure simultaneously 2 to 64 channels are available.

Below models are just some of the examples. Please specify each of number of poles, inter-pole, array, number of leads and type of connectors.

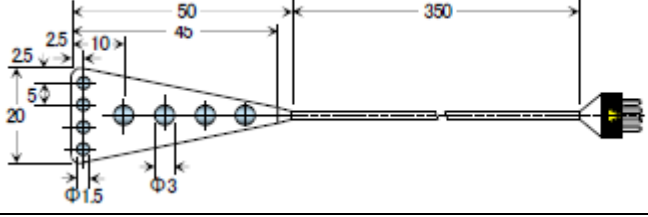

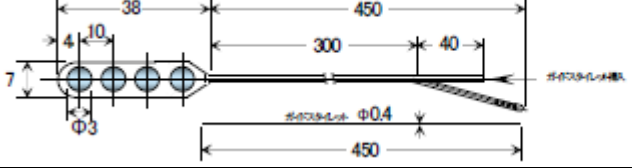

- Subdural electrodes (grid type)

Name/Type	Specification	
Flat vertical type UZN C1-04-04-10-1-B		Face of electrodes Sample of A type connection
Flat vertical type UZN C1-12-04-10-1-A		Face of electrodes Sample of A type connection
Flat vertical type UZN C1-16-08-10-1-B		Face of electrodes Sample of B type connection
Flat Vertical type UZN C1-64-08-10-4-A		Face of electrodes Face of electrodes

Subdural electrodes (grid type)

Name/Type	Specification	
Flat horizontal type UZN C2-04-01-15-1-B		Face of electrodes  Sample of A type connection
Medical temporal lobe type UZN C5-08-04-10-1-B		Face of electrodes 
Flat vertical type (with guide) UZN C6-04-10-1-A		Face of electrodes 

Deep electrodes

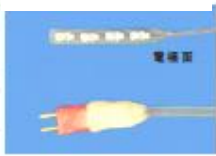

Name/Type	Specification	
UZN D5-06-106-A (with guide core)		Face of electrodes  Sample of A type connection
UZN D4-06-054-151-101-A (with guide core)		Face of electrodes 
UZN D5-15-0501015-A (with guide core)		Face of electrodes 

The other types of electrodes

Electrodes for fissure interhemisphaerica

Electrodes for posteirior hippocampus

Electrodes for anterior hippocampus

Electrodes for amygdaloid body

Electrodes for the other purposes

Electrodes for facies orbitalis
